The Castillo de Bronce (Castle of Bronze) is a very rich, solid cast brass fixture finished in an oxidized AGB - Aged Bronze finish. The exquisite detail of the Olde World castings is complemented by the warm glow of the Antique Italian crystal encrusted in the cast bandings. The interior lights are softened by a glass diffuser plate finished in the same Antique Italian finish found on the crystal. The baked on finish is very durable, but as with all finer finishes no cleaning chemicals should be used, just a damp cloth is best. These European-made fixtures can help turn your home into your castle.
